Atharva Pardeshi

Software Developer

profile

- A self-taught software developer, who believes great software is easy to read, maintain and debug.

- I believe coding standards and best practices are absolutely critical for the long-term success of any software project.

- I see teamwork, open communication and compassion as the most key values for working together.

- Empathy, calm, and optimism help me deal well with everyday challenges and pressure.

- I strive to be curious, humble and ready to adapt believing those are the most important qualities to have for succeeding in the tech industry.
