Atharva Pardeshi

Software Developer

Profile

- I am a self-taught software developer, who believes great software is easy to read, maintain and debug, and I strive to write great software.

- I believe coding standards and best practices are absolutely critical for the long-term success of any software project. I see teamwork, open communication and compassion as the most key values for working together.

- Having a team-oriented approach, I enjoy being helpful.

- My greatest personality asset is my confident, friendly, and easy-going nature.

- Empathy, calm, and optimism help me deal well with everyday challenges and pressure.

- I strive to be curious, humble and ready to adapt as I believe those are the most important qualities to have for succeeding in the tech industry.
